

2022 Strategic Plan Overview

Who We Are

We, the Rocky Mountain Partnership, are a coalition of cross-sector partners and community members committed to working TOGETHER to achieve the vision and mission outlined below.

We engage a 501c(3) that employs a dedicated team, separate from participating organizations, to drive the shared work.

Vision

Every community member in Adams County, the City of Aurora, and the City and County of Broomfield, regardless of race, ethnicity, gender, age, zip code or circumstance, has the opportunity to earn an income that allows them to take care of themselves and their families, and thrive from cradle to career.

Mission

We work together to transform systems when needed that empower community members to earn skills and credentials, have access to Top Jobs, and advance in their career by: building on what works, deploying new and innovative strategies, and aligning policy and funding.

Ultimate Impact We Are Working Towards

We look at **four data points** that help us tell if regional economic and social mobility is ultimately improving. We monitor these, and other key data, in the [Rocky Mountain Partnership Scorecard](#) and through each of our [collective work area dashboards](#). ✦

2022 Strategic Plan Overview

We have always believed that **TOGETHER WE CAN DO BETTER**. RMP continues to be a place where people can come together and find common ground. To that end, we have prioritized four areas where this network is uniquely positioned to do collective work that:

- Is not duplicative of efforts already underway through partner organizations or elsewhere in the region
- Builds on or enhances efforts partners are already working on
- Fills critical gaps to support better coordination and cohesion across efforts

Learn more by clicking each priority area below:

1

Support increasing the number of pathways to Top Jobs and learners on these pathways by driving efforts to increase funding for school districts and community colleges and helping partners understand what's happening along pathways

2

Support community members to have more equitable access to jobs and employers to expand their labor pool by improving their hiring, retention, and employee advancement practices

3

Support increasing the accessibility and availability of affordable housing and reducing the impact of housing barriers on educational and workforce outcomes so that the current and future workforce can afford to live in this region

4

Reduce opioid overdose deaths and close disparity gaps by supporting a Regional Council that distributes funding from state litigation settlements in a way that will have the most impact and prioritizes additional action
